Purpose

The purpose of this policy is to support the purchase of products that will minimise any negative environmental impacts of our work. Precious Lives recognises that the purchasing decisions of our employees and volunteers can make a difference in favour of environmental quality. We prefer the purchase of environmentally preferable products whenever they perform satisfactorily and are available at a reasonable price.

II. Definitions

- A. "Environmentally Preferable Products" means products that have a lesser impact on human health and the environment when compared with competing products. This comparison may consider raw materials acquisition, production, manufacturing, packaging, distribution, reuse, operation, maintenance, or disposal of the product.
- B. "Recycled Products" are products manufactured with waste material that has been recovered or diverted from solid waste.
Recycled material may be derived from post-consumer waste (material that has served its intended end-use and been discarded by a final consumer), industrial scrap, manufacturing waste, or other waste that would otherwise have been wasted.
- C. "Practicable" means sufficient in performance and available at a reasonable cost.

III. Policies

- A. All Precious Lives personnel will purchase recycled and environmentally preferable products whenever practicable.
- B. All imprinted letterhead paper, envelopes and business cards used by Precious Lives departments shall be recycled paper and shall bear an imprint identifying the paper as recycled.
- C. Precious Lives departments shall ensure that the title page of each report printed or copied on recycled paper bears an imprint identifying the recycled content of the paper wherever practicable.

The use of this imprint on every communication will help Precious Lives set an example that will promote the use of recycled products by its clients. There is also a significant community relations benefit in this.

- D. Departments shall use both sides of paper sheets whenever practicable.
- E. Precious Lives shall promote the use of recycled and other environmentally preferable products by publicizing its procurement program.

Materials produced for advertising, conferences, trade fairs, press releases, and other communications with clients and citizens can make reference to Precious Lives' commitment and leadership in the use of environmentally preferable products.

IV. Selected Environmental Products - Products are designated by the Management (see Section V).

Precious Lives departments shall evaluate the following environmentally preferable products and purchase them whenever the evaluation is favourable.
